

Aldan L.M Gehon

Artificial Intelligence & Data Science Engineer

7402196243 | aldanaldan837@gmail.com | Konamkadu, Kanniyakumari — 629803
DOB: 01/08/2005 | GitHub | LinkedIn | LeetCode

CAREER OBJECTIVE

Motivated AI & Data Science graduate passionate about solving real-world problems through machine learning, data analytics, and full-stack development. Eager to contribute to innovative projects by leveraging advanced algorithms, big data tools, and data-driven insights in a collaborative, forward-thinking environment.

EDUCATION

B.Tech — AI & Data Science | M. Kumarasamy College of Engineering, Anna University
CGPA: 6.75

HSC — State Board | Carmel Jothi Metric HR. Sec. School
64% • 2023

INTERNSHIP

AK Info Park — *Mobile App Developer Intern*
Duration: 1 Month **Technology Stack:** Flutter • Dart • Firebase • UI/UX Design

What I Learned & Worked On:

Flutter & Dart: Built cross-platform mobile apps from scratch using Flutter framework and Dart programming language.

UI/UX Design: Designed clean, user-friendly app interfaces with smooth navigation flows, responsive layouts, and modern visual aesthetics.

Firebase Integration: Connected apps to Firebase Realtime Database for live data sync, and implemented Firebase Authentication for secure user login/signup.

App Development Lifecycle: Gained hands-on experience across the full mobile development cycle — from design to build, test, and deployment.

Team Collaboration: Worked closely with senior developers, participated in code reviews, and followed agile development practices.

Skills Gained: Flutter • Dart • UI/UX Design • Firebase Auth • Firebase Realtime DB

PROJECTS

TeleVault – Secure Cloud Storage Application

Technologies: *Next.js • Node.js • Telegram Bot API • MongoDB Atlas*

- → Developed a secure cloud storage application integrating Telegram Bot API for file storage and retrieval.
- → Used MongoDB Atlas for database management and Next.js for the user interface.
- → Designed a cloud-based file management solution with a focus on secure access and efficient file handling.

Women Safety SOS – Smart Emergency Alert System

Technologies: *Java • Android Studio • XML • GPS • SMS API*

SIH Reference: SIH 2024 | Problem Statement ID: SIH1605 | Domain: Women Safety • Android Development • Emergency Response

- → Developing an Android-based emergency alert application inspired by the Smart India Hackathon (SIH) women safety problem statement.
- → Implementing one-tap SOS activation and voice-triggered emergency alerts for rapid assistance.
- → Integrating GPS-based live location sharing and emergency SMS notifications to trusted contacts.
- → Designing emergency contact management, shake-based SOS activation, and an emergency alert dashboard.
- → Focusing on faster emergency communication, usability, and personal safety.

QueueLess – Real-Time Queue Management System

Technologies: *React.js • Node.js • MongoDB • Socket.IO*

- → Developed a real-time queue management platform for customers, businesses, staff, and administrators.
- → Implemented live queue updates and real-time communication using Socket.IO.
- → Built separate user roles and staff dashboards to simplify queue monitoring and customer management.

CERTIFICATIONS

- ✦ Introduction to Business Intelligence — IBM
- ✦ Predictive Modelling Fundamentals — Cognitive Class
- ✦ Introduction to Power BI — Microsoft
- ✦ Basics of Java — Scholarhat
- ✦ Introduction to Cognitive Psychology — NPTEL (Score: 93%)

TECHNICAL SKILLS

Programming: Python, Java, Dart, JavaScript, PHP, SQL
Mobile Dev: Flutter, Android Studio, Firebase (Auth & Realtime DB)
Web Dev: HTML, CSS, JavaScript, PHP, MySQL, API Integration
AI & Data Science: ML Basics, Data Analysis, NumPy, Pandas
Tools: VS Code, Git/GitHub, XAMPP, Android Studio, Firebase

SOFT SKILLS

- ▸ Problem-solving
- ▸ Communication
- ▸ Collaboration
- ▸ Time Management
- ▸ Adaptability

LANGUAGES

- ▸ Tamil
- ▸ English

ACTIVITIES

- ▸ Volunteering & Community Service
- ▸ Leadership Roles
